The Prorogation Scene.

The following account of the prorogation, on the 13th Aug. of the first session of the second Parliament of Canada, is taken from the Toronto *Globe* and must, therefore, be taken *cum grano salis*:—

OTTAWA, August 13.

The city all day had been in a state of bustle and excitement previously unknown. Great interest and anxiety was felt as to the course the Governor-General would adopt in answer to the deputation of the members, but general ignorance upon the subject prevailed. About one o'clock it became known that the Guards were ordered out. It was then certain that the House would be prorogued, and the conjecture was confirmed when about half-past two o'clock several members of the suite of His Excellency took possession of the door by which he was to enter the building. About two o'clock the galleries of the Senate Chamber were crowded, the principal occupants being ladies. On the floor of the Chamber several ladies occupied prominent seats. Some six or eight Senators put in an appearance, and waited with becoming dignity for the approach of the Governor-General. Shortly after 3 o'clock, Lord Dufferin, attended by his suite, entered the Chamber. Black Rod was at once despatched to the faithful Commons with a message, that the Governor-General required their attendance immediately. Some half an hour elapsed, however, before this obsequious functionary returned, and then only followed by the members of the Government and a few of their followers. The great majority of the members present remained in the Commons chamber. His Excellency then read the following

SPEECH:

Hon. Gentlemen of the Senate and Gentlemen of the House of Commons:

In relieving you from further attendance in Parliament, I beg leave to convey to you my best thanks for the diligence with which you have applied yourselves to the performance of your public duties. Among the measures you have adopted are laws of great importance to the well-being of the Dominion. The interests of trade will be promoted by the Act relating to the inspection of the staple articles of Canadian produce, as well as by the statute regulating weights and measures.

The several Acts respecting merchant shipping will contribute to the success and development of that great branch of our national industry and the protection of the lives of seamen.

By the Act relating to the trial of controverted elections of members of the House of Commons, you have adopted the system which is now in successful operation in the Mother Country. I sincerely congratulate you on the admission of the colony of Prince Edward Island as a Province of the Dominion.

Gentlemen of the House of Commons:

In Her Majesty's name I thank you for the supplies you have so cheerfully granted. They will ensure the vigorous prosecution of the great public works so imperatively called for by the wants of this growing country.

Hon. Gentlemen and Gentlemen:

I have thought it expedient in the interests of good Government to order that a Commission should be issued to inquire into certain matters connected with the Canadian Pacific Railway, to which the public attention has been directed, and that the evidence adduced before such Commission should be taken on oath. The Commissioners shall be instructed to proceed with the inquiry with all diligence, and to transmit their report as well to the Speakers of the Senate and House of Commons as to myself. Immediately on receipt of the report, I shall cause Parliament to be summoned for the dispatch of business to give you an early opportunity of taking such report into consideration; meanwhile I bid you farewell.

In this chamber no demonstration of feeling took place. All was as quiet and orderly as could possibly be. At the conclusion of the speech His Excellency and suite withdrew and the spectators also left the chamber.

THE COMMONS.

OTTAWA, Aug. 13.

The Speaker took the chair at 3:25 p.m., and immediately on his doing so

Mr. MacKenzie rose and said:—Mr. Speaker, I propose to address you and the House on a very important question. (Hear, hear.) In the present grave phase of the history of our country, and the extraordinary circumstances under which we are called together, I think—(interruption by the Speaker, and loud cries "Go on," from the members)—I think it incumbent upon me to place the following motion in your hands.

Mr. Speaker—Upon what does the hon. gentleman propose to make his motion?

Mr. MacKenzie—I am making it upon a question of privilege. The following is the motion:—

"That this House during the present session ordered an enquiry by a Committee of its own into certain grave charges in connection with the granting of the charter and contract for the construction of the Pacific Railway, which, if true, seriously affect the official honour and integrity of his Excellency's constitutional advisers, and the privileges and independence of Parliament; that the investigation thus ordered has so far not been proceeded with owing to circumstances not anticipated when the enquiry was ordered; and that it is the imperative duty of this House at the earliest moment to take such steps as will secure a full Parliamentary enquiry; that constitutional usage requires that charges of corruption against Ministers of the Crown should be investigated by Parliament, and that the assumption of that by any tribunal created by by the Executive, would be a flagrant violation of the privileges of this House, and that this House will regard as highly reprehensible any person who may presume to advise His Excellency to prorogue Parliament, before it shall have had an opportunity to take action in the premises, inasmuch as such prorogation would render abortive all the steps taken up to the present time, would inflict an unprecedented indignity on Parliament, and produce great dissatisfaction in the country."

I think this House will regard it as highly reprehensible that a Government against which such charges have been made should be allowed to advise His Excellency to prorogue Parliament before it shall have had the opportunity of taking action on the premises. (Great cheering.)

At this point Mr. Speaker again interposed, and neither Mr. Mackenzie's remarks nor Mr. Speaker's were audible in the gallery.

After some time quiet was restored, and Mr. Speaker proceeded to say that he must request the hon. gentleman to allow a message from His Excellency to be read which the Sergeant-at-Arms had conveyed from the hands of the Usher of the Black Rod.

This announcement was received with groans and hisses, and loud cries of "go on."

Mr. Mackenzie—No messenger shall interrupt me in the discharge of my duty. I stand here as the representative of one of the counties of this Province, (loud cheers), and I have reason to believe that I also represent the opinions of this country (tremendous cheering, cries of order, and another attempt on the part of the Speaker to interpose, followed by renewed groans and hisses,) I propose to call the attention of the House to circumstances that affect the independence of Parliament (cheers), and Sir, I have received a letter informing me that it is the intention of the Governor-General to prorogue this House without it having had an opportunity of discussing what shall be done under the circumstances.

Mr. Speaker again interposed amid cries of "privilege, privilege," and "order," and the Sergeant-at-Arms proceeded to lift the mace from the table, which, however, he again returned to its place.

Mr. Mackenzie continuing, said, it is my purpose to address, and I shall address, this House on a matter which affects its independence. (Cheers.) There is nothing in the present circumstances that justify this Parliament being turned out of doors, and I therefore proceed to the discussion of a matter to which our attention has been called on previous occasions. (Hear, hear.)

Here Mr. Speaker again interposed, and the excitement grew terrible.

Mr. Mackenzie persisted in his efforts to obtain a hearing and was cheered to the echo, and amid all this confusion Mr. Speaker read what was supposed to be the message of His Excellency calling the members to the Bar of the Senate, but he was quite inaudible in the gallery, and must have also been in the House. Directly he had finished, the Sergeant-at-Arms again took up the mace, Mr. Speaker left the chair, the clerks fell into line in usual order, followed by the members of the Administration and a very few others, and made their way to the Senate Chamber amid the loud and long-continued groans and hisses of those who remained. These were over one hundred in number; not one of those dissenting left the floor of the House.

Municipal Police Court.

[Before A. C. Elliott, Esq., P.M.]

MONDAY, Sept. 2.

Wm. Waugh was charged with stealing a gold watch, chain and maltese cross from the person of George Dingle on the 26th ult.

Mr. Courtney appeared for the prosecution; Mr. Bishop for the defence.

George Dingle testified that he occupied room 21 at the Colonial Hotel, retired to rest on Monday night last and in the morning discovered that he had lost his watch, chain and maltese cross.

Cross-examined—I advertised in THE COLONIST offering $75 reward for the recovery. Do not know the accused and have never been in his company to my knowledge. I missed money ($30) besides the property described, from my pocket. On Monday night I was a little under the influence of liquor, but knew what I was about. Did not sleep on Johnson street and never have done so.

Inspector Bowden testified that he saw Mr. Dingle on Monday night and that he then had the watch and chain on him. Recovered the watch and chain from the Miners' Saloon, Johnson street.

J. Johnson deposed that on Friday night the prisoner came to him and asked him to lend him $20 on a watch and chain, as he had a friend in trouble. I handed him a $20 banknote and took the watch and chain. I saw the advertisement in the COLONIST and went to the Police station and informed Inspector Bowden.

Cross-examined—I have known the prisoner since 1862; have often lent him money and he always repaid me.

Charles Phillips, sworn — On Friday afternoon last I was standing at Campbell's corner when I heard something drop; turned round and saw the prisoner (who was in company with another man) pick up a watch, a ring of a chain and a glass. On Friday evening the prisoner showed me (at the Miners' Saloon) a Maltese cross. I identify the cross in Court as the one shown me. Saw the advertisement in THE COLONIST on Saturday morning; went and saw Mr. Higgins and he referred me to Mr. Dingle.

Cross-examined—Have known the prisoner a long time; his character was good.

Sergt. Bloomfield testified that an Indian woman brought him the cross about noon to-day. She said she found it.

The Court was here adjourned until Tuesday at 11 a.m.

THE TICHBORNE TRIAL.—Our blundering contemporary, who is noted for getting the wrong bull (Irish) by the horns, has gone a step further and seized the wrong bird (osprey) by the tail. Readers of the evidence in the Tichborne trial will remember that the Claimant claims to have been picked up by the *three-masted* schooner Osprey. For the prosecution, in the perjury trial, it is shown that while there have been several *two-masted* Ospreys launched in Great Britain and the United States during the last 20 years, only two three-masted Ospreys (one American and one English) have been built in the last 40 years. The movements or these vessels in 1854 till the time they were lost has been fully accounted for, and it has been shown conclusively that neither picked up the Claimant. It is quite true that a schooner called the Osprey was owned by Mr. Southgate in 1858-60; that she was commanded by Capt. Wootton and others, and that she sailed in these waters; but with the name the coincidence ceases, as Mr. Southgate's Osprey was *two-masted*. We fear that our contemporary will scarcely secure a free passage to England to give evidence in the Tichborne case unless he has evidence of greater value to offer.

MINISTERIAL MISDOING.—In an article to some parts of which we must take exception, the *Mainland Guardian* says respecting the present Ministry: "They pay handsome salaries to Immigration Agents, who are instructed to publish in their several localities statements at variance with facts. The result is the arrival of Immigrants who—not finding what they were promised—leave the country in disgust, and prevent others from coming who would have reached our shores without the intervention of agents." And again: "We know that the present heads of Government have enacted laws giving themselves enormous power and patronage, by which means they are enabled to secure industrious agents about the country to assist them in hoodwinking the people; but their blunders owing to incapacity, inexperience, and the want of even ordinary education, are making them so odious, that nothing less than their dismissal can appease the taxpayers."

GOES TO OLYMPIA.—Mr. J. H. Church, accompanied by Madame Stevenson, the talented vocalist, will start this morning for Olympia. An entertainment will be given at that place next Monday evening. From that point Madame Stevenson will make a professional visit of the Sound and British Columbia. From Victoria she will again visit Portland, giving one or more performances, and then proceed up through the valley. Mme. Stevenson is a thorough artiste, and we can cheerfully commend her to the patronage and favorable opinions of the public wherever she may go.—*Portland Oregonian.*

FOR CASSIAR.—A number of persons are outfitting. The California will have a very large freight and at least 40 passengers.

TEIDEMAN'S SILVER LEAD.—Mr. Teideman, C.E., has taken up the silver lead discovered by him at Nias' Point. From a piece of rock as big as your fist he extracted two bits worth of silver.

Washington Territory.

Sheriff Davisson, of Pierce county, was arrested and fined $20 for an assault on Rev. Dr Atkinson, in Tacoma, on Thursday. He went to the reading room established by the latter, seemingly under the impression that it was a liquor saloon and used very bad language, also brandishing a loaded revolver, and making himself disagreeable. He was under the influence of liquor at the time, which probably accounts for his actions. The *Tribune* says his actions demonstrated he was a dangerous man in the wrong place.

A man named Levin was wounded in Tacoma, quite severely, in the right thigh, by the accidental discharge of a pistol in the pocket of his pantaloons. He is getting along all right.

John H. Timmen claims to have discovered the lowest and best pass through the Cascade mountains. The route is up the Lewis river. He proposes that a petition should be gotten up for a Territorial Road leading from Kalama to Fort Simcoe, and says: "It would open one of the finest timber regions on the coast, and make accessible iron enough to construct a double track around the world! Besides, the moment a trail is cut from here to Spilgre, it will be traveled by hundreds of people during summers to visit Mount St. Helen's and a thousand other objects of interest there. It would be a grand highway between Kalama and Yakima vally."

DAISY LAKE.—This lake lies 20 miles above Howe Sound on the line now being run by Gansby's party for the Railway. Mr. Smith, who lately passed around it, gives it as his opinion that it was formed within the last 20 years by the bursting of a lake in the mountains, the waters of which, rushing down the mountain-side, found a lodgment in a valley which it completely fills. The face of the mountain is scooped out for a long distance, and thousands of millions of tons of rock and earth brought down by the torrent, lie scattered along the valley for miles, while above the surface of the water appear the tops of the tallest forest trees. Daisy lake is one of the most remarkable in the country.

LORD CAMPBELL'S LIFE OF BROUGHAM.—In this interesting work there appears the following amusing narration:—When in Brougham in is early career was practising before Lord Eldon he was often greatly annoyed by Lord Eldon calling him Mr. *Bruffom*. To rectify this mistaken pronunciation of his name Brougham sent a message to the Lord Chancellor and that there migh be no mistake in the future wrote down in large round text the letters BROOM. The Lord Chancellor, took the remonstrance in good part, and at the conclusion of the agreement observed, "every authority upon the question has been brought before us, new *Brooms* sweep clean."

SHAM LAND FIGHT.—The entire force of the Fleet under command of Capt. Curme, will land to-morrow morning and proceed to Colwood to engage in a sham land fight. The spectacle, we have no doubt, will be a most interesting one. The Band of H. M. S. Repulse will play during the engagement.

C. of C.—The annual meeting of the Victoria Chamber of Commerce will be held at Mr. Heisterman's office, Langley street, this day at 2:30 p. m. The election of officers and Committee of Arbitration for the ensuing year will form part of the business.

THE Maltese Cross, stolen from Mr. Dingle, was found on Commercial street by a "poor but honest" squaw yesterday noon and handed by her to Sergt. Bloomfield. Through this street Waugh, the accused, when arrested, was led on his way to prison.

PETROLEUM.—We hear that an inspection of all the petroleum in the Province will shortly be made by the Excise officers.

Wilson's Grand Parisian Circus.

This great establishment, which combines a collection of first class artists, horses and ponies, such as has never yet been seen here, will arrive on Thursday and perform on that and the two succeeding evenings. Wherever the Parisian has visited the people have collected in throngs and greeted the performances with enthusiasm. John Wilson, the proprietor, is well known, and deservedly popular in this Province for the excellence of his shows and the efforts he makes to please. Mr. Dodge (who is also well-known and liked here) arrived yesterday to make the necessary arrangements.

TRIBUTE TO SIR JOHN.—The *Leader* says that so highly pleased were the friends of the Government in Toronto with the firm constitutional stand taken by the Ministry and carried into effect by the Governor-General that they have determined to give a banquet to Sir John, on such a scale as would outstrip everything of the kind which has ever taken place in the country. The *Leader* represents the feeling in favor of the Government as very enthusiastic.

INSANE.—Harry Dierk, who used to run the sloop Ocean Queen between this port and San Juan Island, has become insane.

Is it So?

EDITOR COLONIST.—A report is current here that the honorable jumpist, not satisfied with grabbing a town site at Deep Bay, is, *with other licencees* applying for a crown grant of 1,000 acres of land in NELSON DISTRICT! Now, outside the precincts of the Land Office there is not one person out of every fifty in the Colony who knows the location of "Nelson District." The land for which a grant is asked, however, is the BEAUFORT COAL SECTION, COMOX, and in the interest of the Province, and in the name of all that is right I ask what claim, legal or moral, any or all of the licencees can have to a thousand acres of coal land up this way? Are the laws of the Colony to be ignored? Are a few favored individuals to get all they want irrespective of the fulfilment of the conditions the Mineral Ordinance imposes? It is quite certain the requirements of the law have not been complied with in the matter of the Beaufort land, and to permit such an open evasion—to give a Crown Grant without the requisite *bona fide* expenditure and improvements, is both unjust to the country and to those around us who are doing what is right to acquire Coal land. CUMTUX.

His Excellency's Reply to the Memorial.

OTTAWA, Aug. 14—The following is the substance of the verbal reply made by His Excellency yesterday to the memorial presented to him by the deputation of members of the House of Commons:—

GENTLEMEN,—It is quite unnecessary for me to assure you that any representations emanating from persons possessing the right to speak on public affairs with such authority as yourselves will always be considered by me with the greatest respect, even had not circumstances already compelled me to give most anxious thought to the matters to which you are now desirous of calling my attention. You say in your memorandum that four months have elapsed since the Hon. Mr. Huntington preferred grave charges of corruption against my present advisers in reference to the Pacific Railway contract, and that although the House has appointed a Committee to enquire into these charges, the proceedings of this Committee have on various grounds been postponed, and the inquiry has not yet taken place. Gentlemen, no person can regret more deeply than I do these unfortunate delays, the more so as they seem to have given rise to the impression that they have been unnecessarily interposed by the action of the Executive. It may be premature at this moment to enter into a history of the disallowance of the Oaths' Bill, but this much, at all events, it is but fair to every one that I should state, viz., that immediately after I had assented to that Act I transmitted a certified copy of it to the Secretary of State, in accordance with the instructions by which I am bound on such occasions; that, leaning myself to the opinion—an opinion founded on the precedent afforded by the Act of the Canadian Parliament, which empowers the Senate to examine on oath—that the Act was not *ultra vires*, I accompanied it by a full exposition of the arguments which could be urged it its support, but on the point being referred to the Secretary of State for the professional opinion of the law officers of the Crown it was pronounced inconsistent with the Act of Confederation, and that therefore the postponement of the inquiry, so far as it has arisen out this circumstance, has resulted wholly by the operation of law, and has been beyond the control of any one concerned. You then proceed to urge me, on grounds which are very fairly and forcibly stated, to decline the advice which has been unanimously tendered to me by my responsible Ministers, and to refuse to prorogue Parliament; in other words, you require me to dismiss them from my counsels; for, gentlemen, you must be aware that this would be the necessary result of my assenting to your recommendation. Upon what ground should I be justified in taking so grave a step? What guarantee can you afford me that the Parliament of the Dominion would endorse such an act of personal interference on my part? You yourselves, gentlemen, do not form an actual majority of the House of Commons, and I have no means, therefore, of ascertaining that the majority of that body subscribes to the opinion that you have announced. Again, to what should I have to appeal in justification of my conduct? It is true, grave charges have been preferred against these gentlemen — charges which I admit require the most searching investigation—but, as you yourselves remark in your memorandum, the truth of these accusations still remains untested. One of the authors of the correspondence which has made so painful an impression upon the public has admitted that many of his statements were hasty and inaccurate, and has denied on oath the correctness of the deductions drawn from them. Various assertions contained in the narrative of the other have been positively contradicted. Is the Governor-General, upon the strength of such evidence as this, to drive from his presence gentlemen who for years have filled the highest offices of State, and in whom, during the recent session, Parliament has repeatedly declared its confidence. It is true certain documents have appeared in connection with these matters of very grave significance, in regard to which the fullest explanation must be given, but no proof has yet been adduced which necessarily connects them with the culpable transactions of which it is asserted they form a part, however questionable they may appear as placed in juxtaposition with the correspondence to which they have been appended by the person who has possessed himself of them. Under these circumstances, what right has the Governor-General, on his personal responsibility, to proclaim to Canada—nay, not only to Canada, but to America and Europe, as such a proceeding upon his part must necessarily do—that he believes his Ministers guilty of the crimes alleged against them. Were it possible at the present time to make a call of the House and place myself in direct communication with the Parliament of the Dominion my present embarrassment would disappear, but this is a physical impossibility. I am assured by my Prime Minister—and the report of the proceedings at the time bears out his statements—that when Parliament adjourned, it was announced by him as leader of the House, that the meeting on the 13th of August would be immediately followed by prorogation, and that no substantive objection was taken to this announcement, and that, as a consequence, a considerable portion of your fellow members are dispersed in various directions. I should, therefore, only deceive myself, were I to regard the present assembly as a full Parliament. Since the adjournment, indeed, circumstances have occurred which render your proximate reassembling highly desirable, but in this country there are physical circumstances which necessarily interpose a considerable lapse of time before the representatives of the various Provinces comprising the Confederated Parliament of Canada can assemble, separated as some of them are by thousands of miles from the capital of the Dominion. In regulating the times and seasons when Parliament is to be called together, the Executive is bound not only to consider the reasonable convenience of these gentlemen but also to protect the federal rights of the Provinces which they represent. Under the circumstances I have concluded, on the advice of my Ministers, and even if I differed from them as to the policy of such a course—which I do not—it is a point upon which I should be disposed to accept their recommendation, to issue a Royal Commission of inquiry to three gentlemen of such legal standing, character, and authority as will command the confidence of the public, by virtue of the powers conferred upon me by the Act Vic. 31, chap. 38. On the other hand, I have determined, in proroguing Parliament, to announce to the members of both Houses my intention of their reassembling immediately the Commission in question shall have concluded their labours. By these means an opportunity will be afforded for the preliminary expurgation of these unhappy matters before a tribunal competent to take evidence on oath. Ample opportunities will be given to the members of the more distant Provinces to make their preparations in view of an autumnal session; and within two months or ten weeks from this date a full Parliament of Canada will take supreme and final cognizance of the case now pending between my Ministers and their accusers. Gentlemen, the situation we have been discussing is one of great anxiety and embarrassment, but I cannot help thinking that, on a calm retrospect of the various considerations to be kept in view, you will come to the conclusion that in determining to be guided by the advice of my Ministers on the present occasion—in other words, in declining to act as though the charges which have been advanced against them were already proven—and in adhering to arrangements upon the faith of which many of your colleagues are absent from their places, I have adopted the course most in accordance with the maxims of Constitutional Government, and with what is due to those whom the Parliament of Canada has recommended to my confidence.

The following names are appended to the Memorial to the Governor-General:—

Messrs. Archibald, Bergin, Blain, Blake, Bodwell, Bourassa, Bowman, Boyer, Brouse, Buell, Burpee (St. John), Burpee (Sunburry), Cameron (Huron), Cartwright, Casey, Costigan, Cauchon, Charlton, Church, Cockburn (Muskoka), Coffin, Cook, Cunningham, Cutler, Delorme, De St. George, Dorion (Drummond and Athabasca), Dorion (Napierville), Edgar, Ferris, Finclay' Fiset, Flemming, Forbes, Fournier, Galbraith, Geoffrion, Gibson, Gillies, Glass, Hagar, Harvey, Higinbotham, Holton, Horton, Huntington, Jette, Lafiamme, Landerkin, McDonald (Glengarry), McDonald (Inverness), Mackenzie, Mercier, Metcalf, Mills, Paquet, Paterson, Pelletier, Pickard, Pozer, Prevost, Goudge, Rev. Dominion Mail Summary.

OTTAWA, Aug. 19—The writs for the election to the House of Commons in Prince Edward Island have been issued. The nominations take place on the 10th, and the polling on the 17th September.

The following appointments are gazetted, Lieut.-Governor Morris, Mr. Lindsay Russell and Col Provencher to be Commissioners of Indian affairs for Manitoba and the North-west territories.

The Royal Commissioners have engaged a room in the Parliament Buildings, where they will hold their sittings. They will meet to-morrow morning at 10 to make preliminary arrangements.

The 'Citizen' of this afternoon confirms the report that Sir Hugh Allan and his Pacific Railway Company have proven a failure, and have been abandoned. It says that Sir Hugh has practically failed to carry out the arrangements for raising the money to build the road. It advises the building of the road directly by the Government.

The official connection of Col. Robertson-Ross, as Adjutant-General of Militia, terminated on Saturday. It is probable that the duties of Adjutant-General will devolve upon Lieut.-Col. Powell, Deputy Adjutant-General.

Two of the Pacific Scandal Commissioners, Judges Day and Polette, arrived here this evening.

It is now understood that Judge Draper declined to act on the Pacific Scandal Commission, and that the delay in announcing the name from Friday last until to-day was accounted for from the fact of having to await Judge Gowan's answer.

The Rev. Thos. Johnston, formerly a Wesleyan Minister, but latterly an Episcopalian, while returning from services yesterday near Bristol's corners, was thrown from his buggy and instantly killed. The body has been brought into the city by his relations here.

MONTREAL, Aug. 19—The Hon. Mr. Huntington has definitely resolved on not bringing his evidence before the Royal Commission.

OTTAWA, Aug. 14—The 'Globe's' correspondent says: "It is stated on good authority that the Pacific Railway Charter has been cancelled, and Sir Hugh thrown overboard.

The British Admiral, Yelverton, informed the rebels of his intention to move vessels Vittoria and Almanza to Gibralta. At a meeting of the rebels a majority decided to open fire from the forts in case of a removal of the Spanish ships being attempted. The Admiral gives 48 hours' warning, and threatens to bombard Cartagena if the forts fire on the ships.

LONDON, August 29.—In the trial of the Tichborne claimant to-day, a large number of witnesses from Wapping testified that the claimant was not Arthur Orton. Late advices from Fiji are to the effect that a rebellion has broken out and that the rebels have murdered a number of white settlers.

NEW YORK, Aug. 31—Henry Mott writes to the London Times that all young men sent out by the Japanese Government to Europe and America, with a view of applying themselves to study of different branches have since been ordered to return home. The students at present number 600. The reason given for the recall is that upon the return of the students from Europe and America they are unable to bear a satisfactory examination in the studies they were pursuing. The failure is attributed to the want of a knowledge of the language of the country in which they studied.

New York, Sept 1—The Mayor of Portland, Oregon, in refusing aid from anonymous correspondents for the sufferers by the recent fire, writes to say the stories of want and disaster telegraphed were somewhat exaggerated; that $10,000 contributed by citizens will be sufficient to supply all actual need, and that he declines to draw on the $13,000 collected in San Francisco.

CHICAGO, Sept. 1—Dispatch from Clinton, Mo., says: On Thursday night a skirmish occurred near Monagon Springs, St. Clair Co., between the Iowa Sheriff and the robbers who recently attacked a train near Des Moines, Iowa, in which one robber was wounded. What the Canadians Have in Mind.

[From the S. F. Alta.]

The Canadians are thinking of everything which promises them the best route from the great West to the seaboard. The main features under favorable consideration or in process of accomplishment in the Dominion are, in this connection:

1. The enlargement of the Welland canal.

2. The enlargement of the St. Lawrence canal to a capacity equal to that of the improved Welland.

3. The connecting of the Ottawa river with Georgian Bay (Lake Huron) by canal, via the French river.

4. The construction of the Onaghawaga Canal to unite the St. Lawrence, a short distance above Montreal, with Lake Champlain by a short cut only twenty-nine miles across a level tract of country.

It is intended that the canals of the St. Lawrence and Ottawa be increased to a uniform width 100 feet, those on the St. Lawrence and the Welland Canals to be deepened to twelve feet draught, and on the Ottawa to have nine feet, while the the projected water link between the St. Lawrence and Lake Champlain will afford a passage for the largest vessel that can enter the lake port harbors or come through Welland Canal—viz: steam propellers of 1,900 tons burden.

GLAN MOR SEA BATHING.—Anyone wanting real good sea bathing (and who does not at this season of the year?) will find a magnificent beach, tepid water, lovely view and sheltered from the cold Victoria winds, at the contemplated town-site of Glan Mor. Turning in on the right at Elk Lake there is a road which leads to the spot. We would advise the public to take their tents and judge for themselves. * *

NOVELTIES.—Music or Maps published, Visiting Cards printed from plates, Books, Cheques, etc., numbered and perforated; also, Charts or Drawing Paper mounted on linen, and the most difficult forms of ruling and book-binding executed with neatness and dispatch. R. T. WILLIAMS, at Messrs. T. N. Hibben & Co.'s, Government street. * *

VISITORS TO HOLDEN'S HOTEL, on the Ross Bay and Clover Point Road, will find a bountiful Lunch of Cold Meats and German Salad served up free. For a beautiful walk or drive, or stroll on the sea beach, this suburban retreat is unsurpassed. *

SUMMER GOODS.—By the Prince Alfred Turner, Beeton & Tunstall have received some beautiful Novelties in Summer costumes, Elizabeth Ruffles, Lace Goods, Flowers, &c. &c. *

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable dealers throughout the Colony. * *

Adopt the Preventive Policy.

Severe spells of biliousness, indigestion, chills and fever, diarrhœa, nervous headache and physical exhaustion are quite usual at this season. These are visitations which everybody is anxious to avoid, and as a course of Hostetter's Stomach Bitters will unquestionably fortify the system against them, the most valuable medical advice which can be offered at this time to persons subject to such complaints at all sensitive to atmospheric changes is to commence taking this powerful vegetable alterative and invigorant without delay. Forty-eight hours will not have elapsed after the first dose before a marked change will have manifested itself in the condition of the system. The ultimate result will be a habit of body so regular, a genial condition so vigorous, that however unhealthy the season may chance to be, the system thus reinforced will be in the best possible trim to encounter it.

FOR DYSENTERY, CHOLERA, AGUE, COUGHS COLDLS, &c.

DR. J. COLLIS BROWNE'S
(Ex Army Med Staff)
CHLORODYNE,
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W P Wood stated that Dr. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE: that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr J Collis Browne was the discoverer of Chlorodyne: that they prescribe it largely and mean no other than Dr Browne's—See TIMES, July 12, 1864.

The Public therefore are cautioned against using any other than

DR J. COLLIS BROWNE'S CHLORODYNE.
REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the nervous system restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures while medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma Crump Rheumatism, Neuralgia, Cough, Hysteria, &c

The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet Dec 31, 1864.

From A Montgomery, Esq., late inspector of Hospitals, Bombay: Chlorodyne is a most valuable remedy for Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months severe suffering, and when other medicines had failed.

Dr Lowe, Medical Missionary in India reports [Dec 1865] that in nearly every case of Cholera in which Dr Collis Brownes' Chlorodyne was administered the patient recovered.

Extract from Medical Times, Jan 10, 1866—Chlorodyne is prescribed by scores of orthodox remedical practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the general Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases,

Beware of spurious and dangerous compounds sold as CHLORODYNE from which frequent fatal results have followed.

See leading article, Pharmaceutical Journal, Aug 1, v8c9, which states that Dr J. Collis Browne was the inventor of Chlorodyne: that it is always right to use his preparation when Chlorodyne is ordered. FRENCH MEDICINES
Prepared by
GRIMAULT & CO.,
Pharmaceutical Chemists,
8, Rue Vivienne,
PARIS.

OF ALL THE MEDICINES OFFERED TO the public for many years past, none have met with such favorable reception, or as been so generally approved by the Medical Profession as those prepared by Messrs. Grimault & Co.

The model Laboratories of this firm, situated at Neuilly-sur-Seine, and managed by Dr. Leconte, Professor in the Faculty of Medicine, ex-Pharmacist of the Hospitals of Paris, and formerly Assistant to Dr. Claude Bernard, Professor of Physiology at the College of France, offers guarantees to be found in no other establishment.

Among other preparations we may specially mention:—

Leras' Liquid Phosphate of Iron.

It contains the constitutive elements of the bones and of the blood, and is the most rational of all chalybeates. It may be prescribed for the most delicate young females whose development has been retarded; for women suffering from stomach complaints, anæmia; for pale and sickly children deprived of appetite; and as its principal action is to restore to impoverished blood the iron in which it is deficient, and to the bones the phosphate that forms their base, it is recommended for debilitated persons whether their debility proceeds from disease or from any other cause. It is use is always attended with surprising results.

GRIMAULT & CO.'s
Syrup of Hypophosphite of Lime.

An excellent remedy for all affections of the chest; it relieves coughs, effectually prevents nocturnal perspiration and restores the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault & Co.

GRIMAULT & CO.'s
Iodized Syrup of Horse Radish.

Considered the best substitute for Cod-liver Oil. It has been ascertained by experiments made in the principal Hospitals of Paris that this syrup has always produced results superior to those obtained from the above-mentioned Oil, which patients find so disagreeable to take.

Not a single instance can be adduced in which pale lymphatic children, subject to swelling of the glands, to eruption of the skin, of the head or the face, or other inconveniences of a weak constitution, who have taken this syrup without deriving signal benefit from its use.

GRIMAULT & CO.'s
Pepsine Digestive Powders, Pills, Elixir and Wine.

Pepsine is one of the most recent scientific discoveries in theraputies. Acting chiefly on the organs of digestion, it possesses the property of effecting digestion by its innate virtues. It removes all the inconvencies of difficult digestion and even prevents the nausea to which pregnant women are liable.

The researches on pepsine made at the College of France by Dr. Leconte, in conjunction with Professor Claude Bernard, must secure the preference for our preparation of pepsine.

Lagasse's Syrup and Paste of Sea Pine Sap.

Employed with success in the treatment of catarrh, bronchitis, hœmoptysis, and the different stages of phthisis.

It cures spitting of blood, the most obstinate coughs, alteration of the voice, oppression and pains of the chest, the nocturnal paroxysms of asthmatics, and modifies the more serious lesions of the respiratory organs.

GRIMAULT & Co.'s
Matico Injection and Capsules.

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant success in a certain class of contagious diseases.

They combine extraordinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the strictures that result from the use of injections having a metallic basis.

GRIMAULT & Co.'s
Pectora Lozenges of Lactucarium and Cherry Laurel.

This delicious comfit, containing the two most soothing substances of the whole Materia Medica is employed with success against coughs, influenza, bronchitis, hooping coughs, &c.

Asthma. Asthma.
GRIMAULT & Co.'s
Indian Cigarettes of Cannabis Indica.

All the means hitherto employed to relieve Asthma have been only palliatives in varied forms, based on belladona, stramonium, nicotiana, or opium. Recent experiments made in the Paris Hospitals have proved that our Cigarettes made of the extract of Indian Hemp possess remarkable virtues against this complaint, as well as against nervous coughs, chronic laryngitis, hoarseness, loss of voice, facial neuralgia, and insomnia.

Grimault & Co.'s Guarana.

A single powder of this vegetable production is sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa, dysentery, and all disorders proceeding from derangement of the stomach or bowels, This powder is indispensable for all families, and far more efficacious than opium or sub-nitrate of bismuth.

GRIMAULT & Co.'s
Vermifuge Santonime Dragees.

Under the form of a comfit, equally pleasing to the taste and to the eye, they supply mothers with an easy and perfectly safe means of relieving their young children from intestinal worms, which are often the cause of convulsions.

Paleness of the skin and frequent irritation of the nose are nearly always the certain signs of the presence of worms. Preference ought always to be given in such cases to these dragees, the composition of which is well known and always the same, instead of those which are called vegetable, but often contain calomel or other forms of mercury.

GRIMAULT & Co.'s
Newfoundland Cod Liver Oil, and Cod Liver Oil, with Iodide of Iron.

The Cod-liver Oil which we offer to the profession and the public is especially extracted for our house in Newfoundland, and we can therefore guarantee its altogether exceptional purity.

Our Newfoundland Oil with Iodide of Iron, which contains in every tablespoonful two grains of pure Iodide of Iron, is a valuable resource in lymphatic and scrofulous affections, as also in consumption.
